

Microphone Boom

B-BO

The hand-held boom is made from light and sturdy fiber carbon material. The boom extends from a closed length of 340 cm. to a maximum length of 900 cm. through three sliding stages.

Various types of microphones are easily mounted on the boom using attachment accessories.

A special handle allows for the microphone cable to pass through for an easy and tangle free cable operation.

Our booms are offered in three models:

B-BO 900 (9 m)

B-BO 540 (5.40 m)

B-BO 340 (3.40 m)

Studio Boom

Portable Boom
