**Model : LLC-6-9**

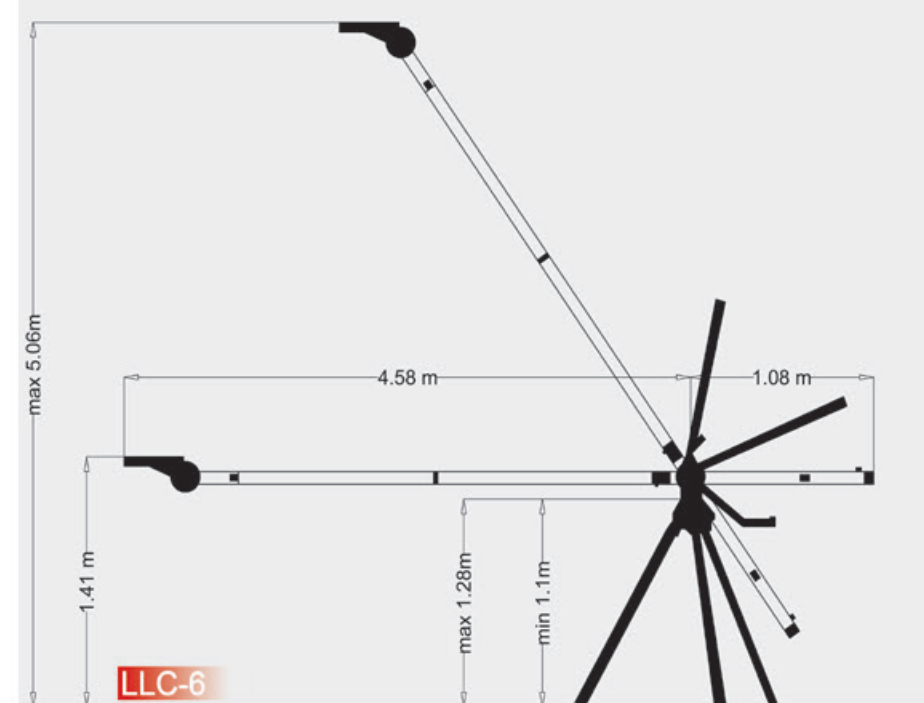

LLC-6 is a 6-meter crane which is suitable for broadcast applications and it supports cameras up to 13 Kilograms. LLC-9 accommodates DV and HDV cameras with a weight of up to 10 Kilograms, and it extends for 9 meters. LLC-6-9 is set up and ready to go in just 10 minutes. Using a lever at the end of the crane, the operator can adjust the position and the angle of the Head. In case a remote Head is used, the Head is fixed horizontally using a pin. B-LRH is the ideal Head for mounting various DV and HDV cameras on this crane.
