

Microphone

ME 4

ME 4 is an extremely small lavalier microphone which is suitable for speech applications in noisy and highly reflective sound environments. The cardioid capsule in the microphone eliminates unwanted audio feedbacks.

- Clear and transparent sound output
- Elimination of feedbacks
- Easy mounting on clothes
- 3.5 mm. connector to interface with bodypack transmitters

Frequency response	50 - 18000 Hz
Capsule	condenser
Connector jack	3.5 mm. Mini jack
Cable length	1.6 m.
Pattern	Cardioid
Sensitivity	40 mV/Pa
Noise level	31 dB
Maximum sound pressure level	120 dB
Operating voltage	7.5 V
