

## Model : P50-70

P50 is a portable and compact system for both studio and OB applications. Extremely stable yet lightweight, its ideal performance is reached with camera/lens combination of around 45 Kg. in the P70 version the payload capacity is extended to 65 Kg. the air filled, one shot column is fast and safe to operate: the air can be set in manually or by compressor, and a safety air pressure valve prevents danger of over pumping.

### Features:

- Innovative column design provides outstanding stability and jerk-free control for smooth and precise movements
- High capacity payload support
- Foldable dolly
- Track lock and foot operated brakes provide smooth movements in any desired direction
- Column is secured to the dolly by a double clamp, engaged by two ergonomic locking levers

### Specification

Maximum pressure P50:	17.0 atm(250psi)
Maximum pressure P70:	12.2 atm(175psi)
Maximum capacity P50:	55 kg
Maximum capacity P70:	65 kg
Total weight P50:	28 kg
Total weight P70:	28 kg
On-shot stroke:	50 cm
Dolly leg radius:	50 cm
Steering wheel diameter:	45 cm
Minimum height:	75 cm
Maximum height:	140 cm
Wheels:	3x Double
Wheel diameter:	125 cm
Doorway tracking width:	100 cm
