

**Model : TFL-800P**

TFL-800P is a set of portable lighting fixtures which is suitable for general purpose, fast turnaround, location and studio use. Thermoplastic housing and aluminum inner shells provide superior hot-handling capabilities, and the reflectors give exceptionally even fields of illumination. Matt-finish barndoors have spring clips for easy use of color correction filter or diffusion materials.

The stand is collapsed slowly due to a smooth pneumatic release which prevents damage to the light bulbs.

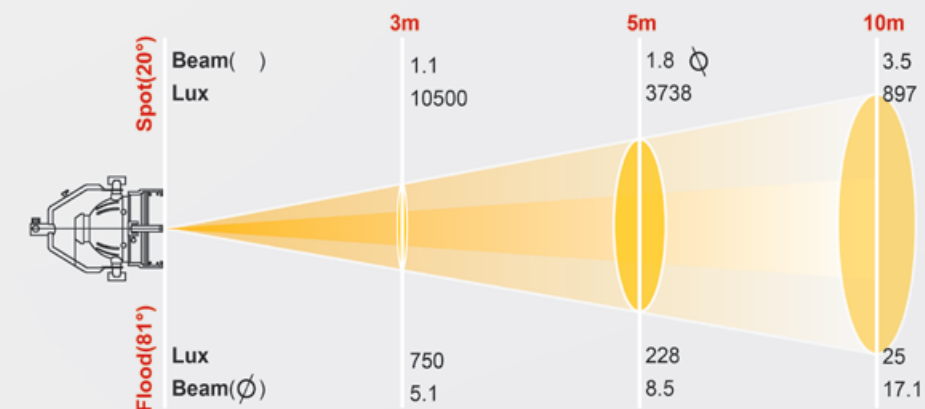

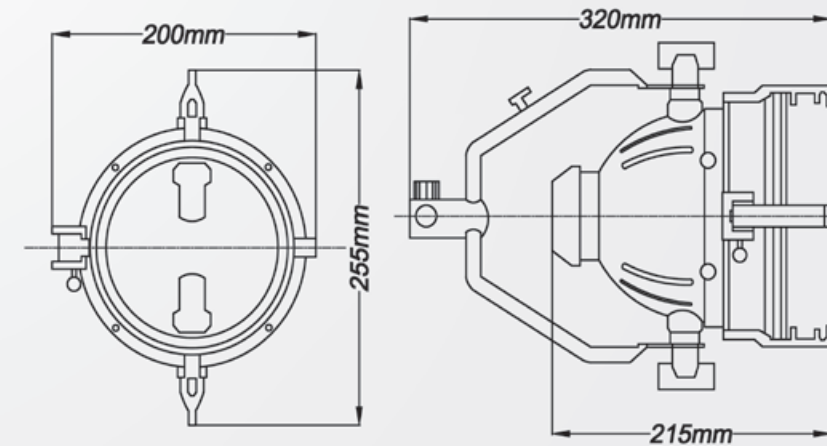

A soft box is included which can convert one of the spot lights into a fill light.

**Accessories:**

- 3 pieces of 800W lamp
- one soft box
- 3 pieces of filter holder
- 3 pieces of 4-leaf barndoor
- 3 pieces of light stand
- Aluminum carrying case with wheels

**Specification**
