

## TLPL-CW 200

## TLPL-CW 200 LED Profile Spot Light

Our company Lighting Studio Manufacturer independently developed the new LED Profile Spot Light according to different Optical principle, already had the Utility, Patent of Appearance and Optical design. Looks more Exquisite fashion, with high illumination, high CRI, high power in one. This item equipped with the sealed packaged COB LED lamp form Japan and high quality no noise fan of Pccooler. The light not only be sharp, framing shutters and gobo or plastic slides projection, but also have equipped with different power consumption (120W/200W/300W), high illumination, Ra≥ 93, super silence working environment.

The light not only be sharp, framing shutters and gobo or plastic slides projection, but also have intense accent light output and silence working environment. Beam angle can be selected 19°/26°/36°/50°, you can exchange lens of our this light with ETC's

Indispensable for dramatics effects at the opera, it is also ideal for outdoor TV recording, fashion shows and large scale shows.

## Specification

Voltage:	AC90-260V
Frequency:	50-60Hz
Power Consumption:	150W/250W/260W/390W
LED POWER:	120W/180W/200W/300W
LED QTY:	1 piece
LED Color:	RGBW 4IN1(200W), RGB 3IN1(180w), 2IN1(200W), cool white/warm white(120W/200W/300W)
Color Rendering Index(CRI):	Ra≥90
LED Life Time:	over 50,000 hours
Fixed Lens:	19°/26°/36°/50°(optional)
Focus:	Can be adjusted by hand
Control protocol:	DMX 512
Control System:	DMX, Autorun and Master/Slave
Control Channels:	1/3CH(single color), 2/5CH(2in1), 3/7CH(RGB)
Dimmer:	0~100% linearly adjustable
Strobe:	1-25times/sec
Environment Temperature:	-30°~ 40°
Technology:	High-quality optical system , Glass reflector
Light body:	PVC
Body color:	Black
Feature of housing:	Small volume, lightweight
Cooling system:	No noise fan of Pccooler
Net Weight:	6kgs
Gross Weight:	8kgs
Packing Size:	70x30x31 CM
