

Tripod

Model : TRP

The TRP Tripod is extremely light weight and rugged due to the multilayer Fiber Carbon alloy which is used for its construction. As a result, TRP can be utilized as a Tripod for ENG camera applications.

Features:

- Light weight
- Heavy payloads supported
- Quick set up and fold up time
- Integrated Dolly with wheels
- Supports all the parameters of a standard Camera Head (Tilt, Pan, Lock, etc.)
- Supports Standard camera Heads
