

BSE 1

BSE-1 Lens Control System from PDMOVIE can control all types of lenses such as TV, film or DSLR lenses via remote or cable.

BSE-1 Wireless Control technology offers simple operation and highly efficient two way communication over 2.4 G bandwidth frequency or via 4.0 Bluetooth.

Features:

- Light weight
- Smooth and precise motion
- Range up to 100 m
- Integrated high capacity battery
- Accurate motion control even at very low speeds
- Simultaneous zoom, focus and IRIS control
